Power Bank

Safety Precautions

Read these safety instructions before using your device and store them for possible future reference.

- The device is not intended for use by persons (including children) with reduced physical, sensory or mental capacity. Persons who have not read the manual, unless they have received explanations by a person responsible for their safety and supervision should not use this unit.
- Children should be monitored to ensure that they do not play with the device.
- The device should always be readily accessible.
- The device should not be exposed to dripping or splashing water.
- No objects filled with liquids such as vases shall be placed on the device.
- Always leave a minimum distance of 10 cm around the unit to ensure sufficient ventilation.
- Open flame sources, such as candles, should not be placed on top of the device.
- The device is intended for use only in a temperate climate.

Specifications

Input: DC 5V $\overline{=}$ 2A

Output: DC 5V $\overline{=}$ 2A

Maximum consumption: 9W

Battery type: Li-Po 8000mAh

Battery lifetime: 400 times

Charging time : 4h

Size: 125 x 70 x 15mm

Weight: 198g

Product description:

This Power Bank has a housing made of Wheat-Straw fiber material mixed with ABS. The power bank is equipped with LED indicators that show the current energy level. The power bank comes with accompanying cables. The power of the power bank is sufficient to fully charge a mobile phone up to two times. The housing of the power bank is made of degradable Wheat-straw Fiber and comes in a beautiful packaging of recycled kraft material.

This is how to charge it:

Plug one end of the USB cable into the power bank and the other end into the power supply. The power bank is now charging. You can see from the flashing LED lights how full the power bank is at the moment. The power bank is full when the lights stop flashing.

This is how you set it up:

With this power bank you only need to make sure that it is fully charged. By press the "On/OFF" button of the power bank to the power supply you can see the current energy level. By plugging the supplied cable into your phone and into the power bank, your phone charges easily.

Declaration of conformity UE

The European directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal unsorted municipal waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain, and reduce the impact on human health and the environment. The crossed out "wheeled bin" symbol on the product reminds you of your obligation, that when you dispose of the appliance, it must be separately collected.
